

# GstarCAD borrow network license from server, legacy 2013 - 2019

1009 kbadmin July 6, 2021 [Activate / Deactivate](#) 0 10775

What is more, GstarCAD 2016 provides the function that you can borrow and return license from user client. This section describes how to borrow license on client. In some special case, you need to transfer one or more than one nodes to individual computer. For example, you need to activate GstarCAD 2016 on a laptop for a certain time, in order to bring it to other place. It is great way to use this function.

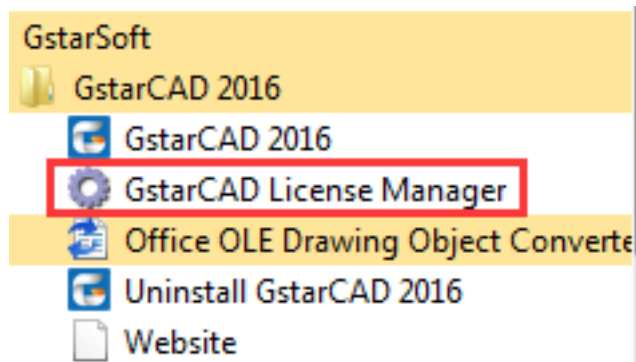

## Proceed to operate

Requirement conditions<sup>2</sup>

1. GstarCAD 2016 has to be installed on the machine or computer.
2. It has to be in a same local area network, and connect to server.

## Borrow the license on the client

Click “GstarCAD License Manager” from Windows Start button> All Programs> Gstarsoft > GstarCAD 2016.

In the GstarCAD License Manager window, click the “Borrow” button.

Follow the introduction on your screen. Input the Network license Serial Number, IP or Server Name and Expiration Data and click the “Borrow” button.

You have borrowed a license successfully. Click the “OK” button to close the window.
