DGN import + underlay

1016 kbadmin June 29, 2021 Compatible format 0 6527

DGN File Format

GstarCAD 2016 continuously improves its compatibility. This version has implemented the full DGN files support and related commands such as DGNIMPORT, DGNATTACH, DGNADJUST, DGNMAPING, etc. Now you can import and attach as underlay a Microstation native format.
