

KLL01 - Statistics Summation

1044 kbadmin April 5, 2017 [Express Tools](#) 0 5756

This function sums up selected text or mtext.

The selected text can not contain any other characters behind the number and the selected mtext can only contain a row of numerical values without blank spaces. Figures with prefix can also make statistics Summation and the system will summate them by different prefixes.

Menu: Express tools>Modify>Statistics Summation

Menu: Text>Statistics Summation

Command Entry: KLL01

Start the command and the command line prompts as follows:

Select objects : Select Text or Mtext numerical value

In the Statistics dialog box, you can see the cumulative sum from the selected text numerical values. You
