

How to change zoom direction?

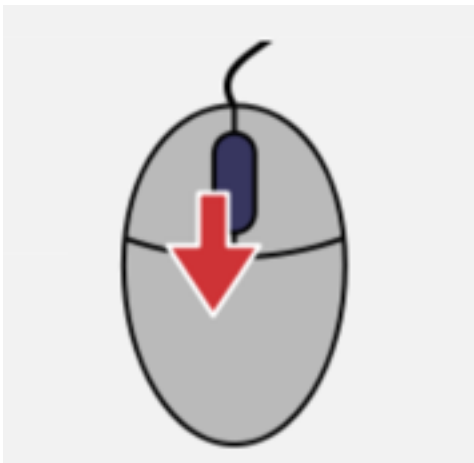

1066 kbadmin April 2, 2016 [Tips & Tricks](#) 0 5769

Another related system variable is ZOOMWHEEL which can toggle the direction of transparent zoom operations when you scroll the middle mouse wheel.

0 : Moves wheel forward zooms in; moving wheel backwards zooms out

1 : Move wheel forward zooms out; moving wheel backwards zooms in. Message with a green flag.
