

What happened to my PLOT/FILE dialog box?

1125 kbadmin April 3, 2016 [System Variables](#) 0 4203

You may occasionally find yourself in a situation where the NEW, OPEN, and SAVE commands do not provide a dialog. Simply enter FILEDIA at the command prompt and enter a value of 1. If you attempt to PLOT and fail to get a dialog, simply enter ` at the command prompt and enter a value of 1.
