DIMTVP system variable

Function Description:

The **DIMTVP** system variable is used to control the vertical position for dimension text above or below the dimension line.

Type : Real
Saved in : Drawing
Initial value : 0.0000

It uses the **DIMTVP** value when the **DIMTAD** is off.
The vertical offset is created by text height and **DIMTVP** value.
Setting the **DIMTVP** to 1, the **DIMTAD** is set to be on.
The dimension line will be broken to place dimension text when the absolute value of **DIMTVP** smaller than 0.7.
