

# DIMSTYLE command

2092 GstarCAD MY /KW April 15, 2022 [CAD Commands](#) 0 4057

The **DIMSTYLE** command is used to create and modify dimension styles.

## Command Access:

Ribbon : Annotation > Dimension > DIMSTYLE

Menu : Format > Dimension Style...

Menu : Dimension > Dimension Style...

Command : DIMSTYLE (display Dimension Style Manager dialog box), -DIMSTYLE (display command line prompts)

## Function Description:

The dimension style contains all kinds of dimension settings. Users could create a new dimension style and modify dimension format to control dimension display and make sure the dimension conforms to the standard

Inputting "-dimstyle" under command prompt, it will display options.
