

IMAGEATTACH command

2156 GstarCAD MY /KW August 16, 2021 [CAD Commands](#) 0 4266

The **IMAGEATTACH** command is used to insert reference to image files.

Command Access:

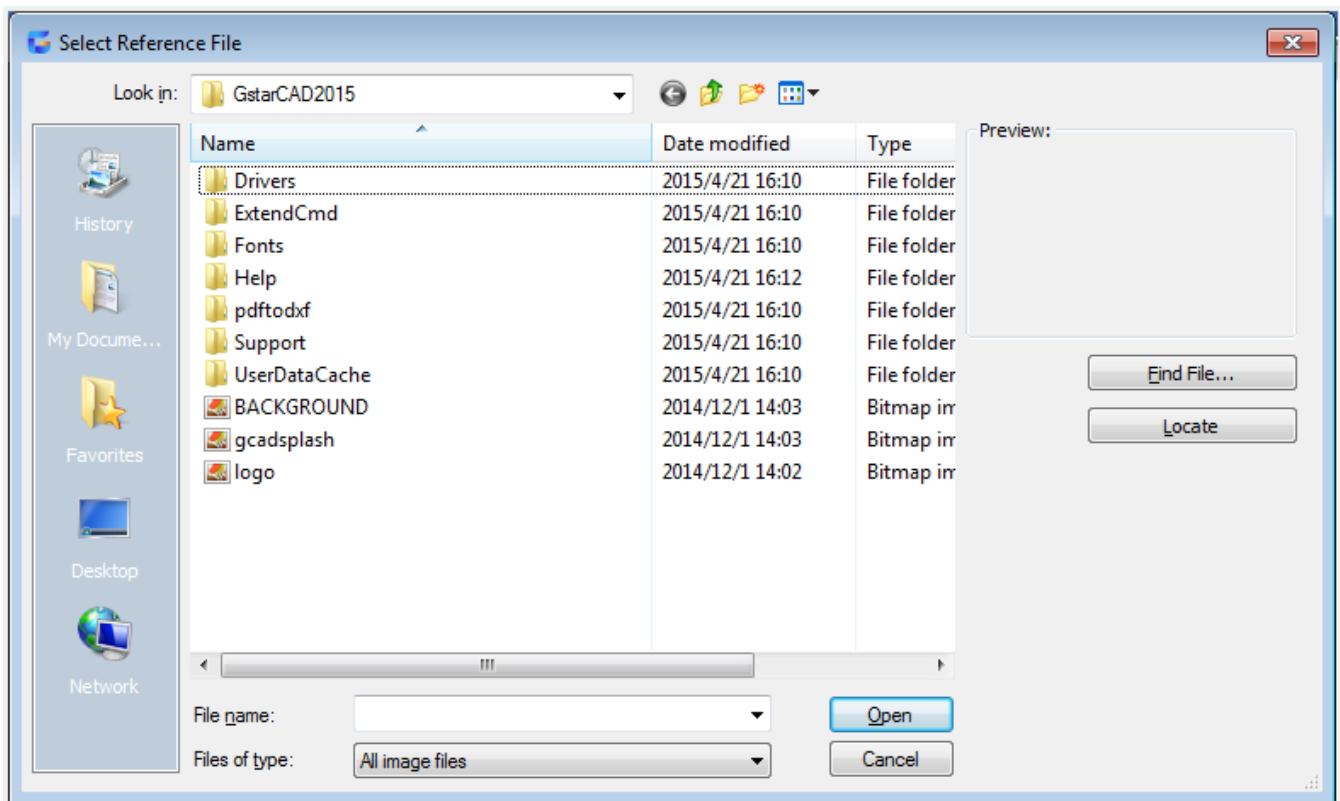

Ribbon : Insert > Reference > Attach

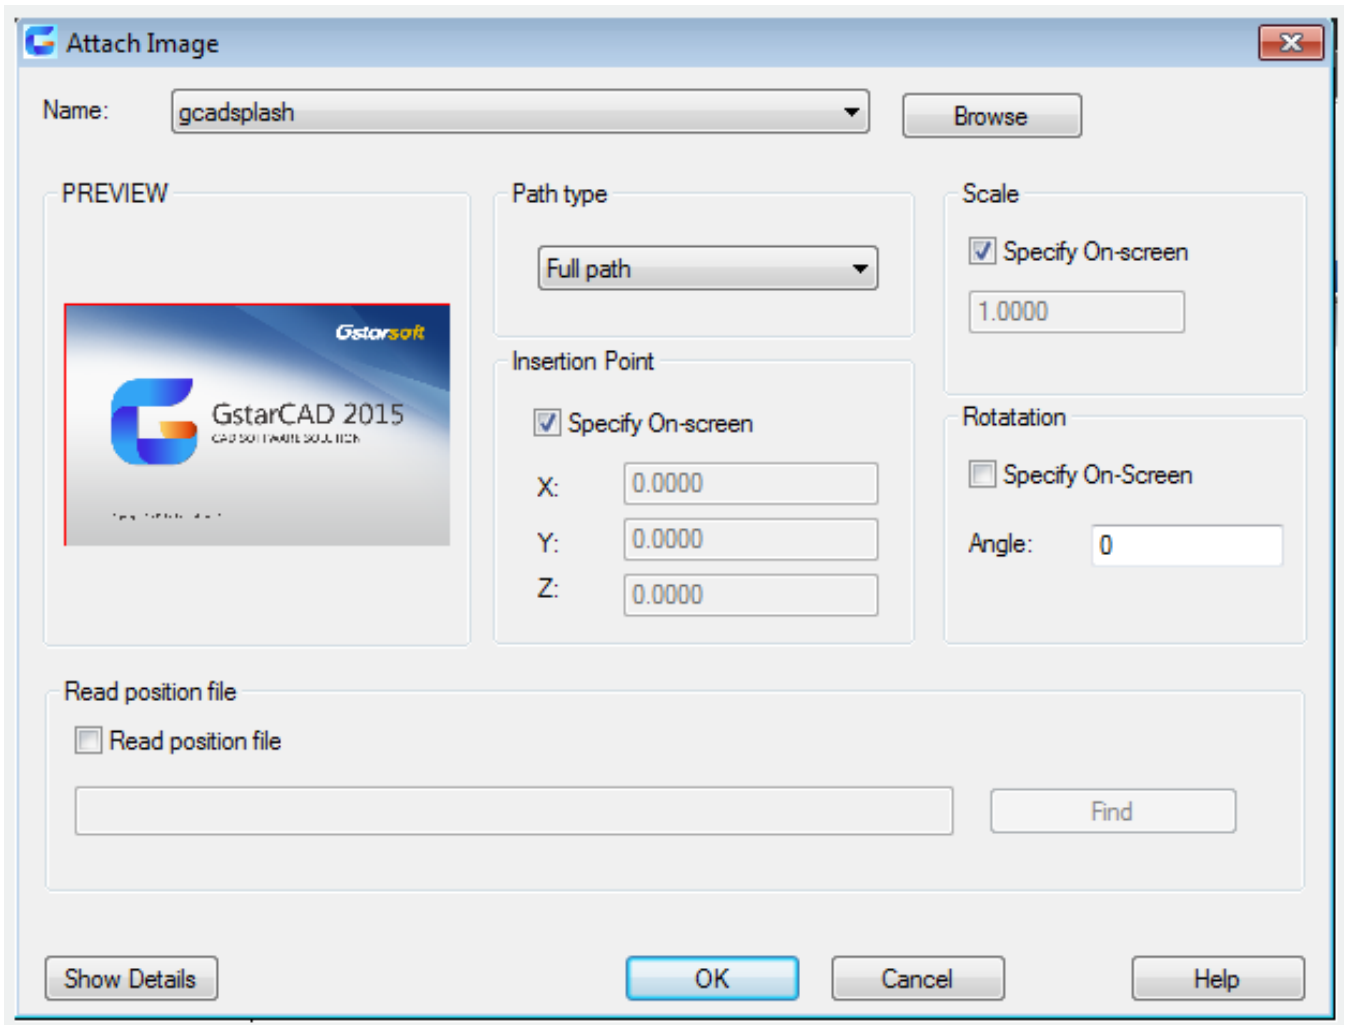

Menu : Insert > Raster Image Reference...

Command : IMAGEATTACH

Function Description:

The attached image file will be linked to the current drawing. When reopening or reloading the reference file, it will show all changes in reference images. Users could select specified image files in the "Select Reference File" dialog box and specify the style of attaching in the "Attach Image" dialog box.
