

LOCKUP command

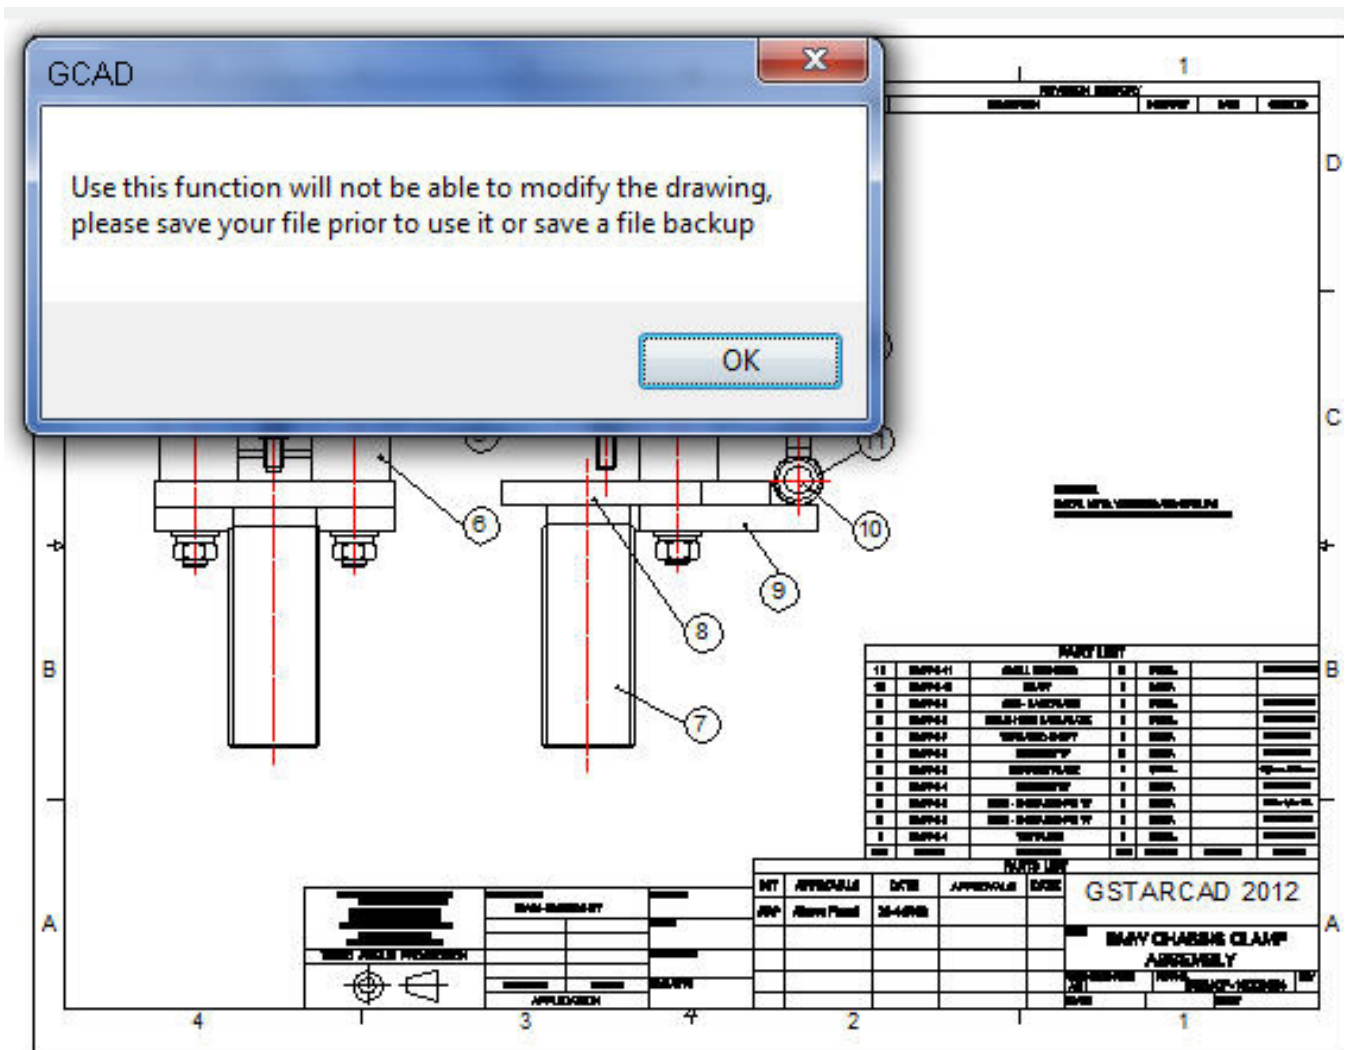

The **LOCKUP** command is used lock the drawing into a whole block. You can't explode it or modify the objects of the original drawing. It is a good way to prevent others from modifying the drawing.

Command Access:

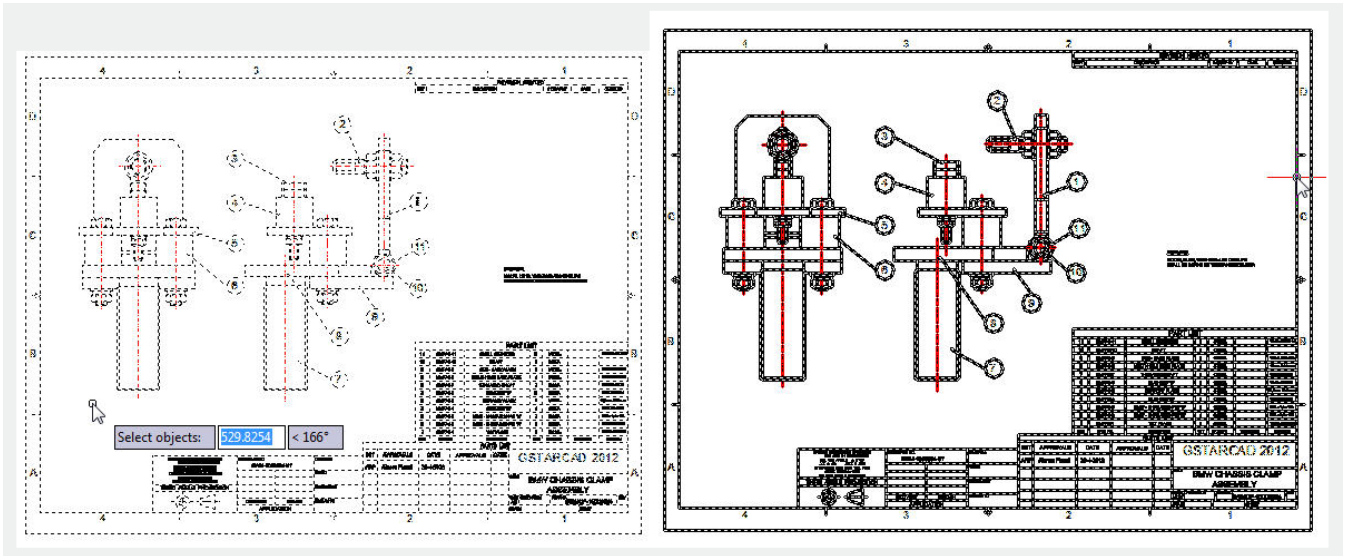

Command Entry: LOCKUP

Menu : Express tools>Drawing Tools>Drawing Lock

Once the command is started, the follow wizard will be displayed:

Select objects: Select all the objects in the current drawing to be locked and press Enter.

Note : Please save your drawing before using this function, because the locked drawing can't be modified.
