PASTEORIG command

The **PASTEORIG** command is used to paste objects from clipboard to current drawings with original coordinates.

Command Access:

Ribbon: Home > Clipboard > Paste > Paste to Original Coordinates
Menu: Edit > Paste to Original Coordinates
Command : PASTEORIG
Shortcut : right click and select "Clipboard" and click "Paste to Original Coordinates" when there is no command active

Function Description:

When the object copied from clipboard is pasted to current drawing, the coordinates of object will be the same as they are in original drawing. This command could only be valid when the pasted objects from other GstarCAD data rather than current drawing.
