

Work with Multiple Open Drawings

2460 GstarCAD MY /KW April 11, 2022 [Getting started](#) 0 4697

To switch from a drawing to another one when multiple files are open, there are a few different options:

When multiple drawings are open, you can click anywhere in the drawing to activate it.

Click the drawing name on File Tab bar.

You can control the display mode of multiple drawings with the Windows menu.

Use CTRL+F6 or CTRL+TAB to switch from one drawing to another.
