

# Create Leader Text

2559 GstarCAD MY /KW November 9, 2021 [Workflow](#) 0 2776

With this function you can create a line that connects annotation to a feature

## Create leader

You can create a leader with the [LEADER](#) or [QLEADER](#) command in any place of the drawing and you can set the format and control the appearance at the same time.

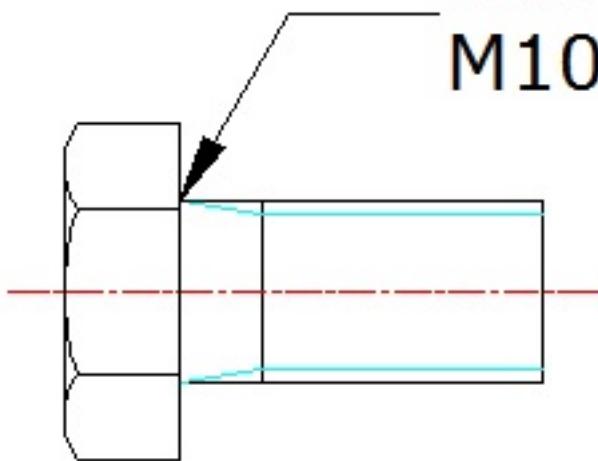

## Add text to leader

There are two ways to create a leader text:

Type a text on the command line

Create a multiline text ([MTEXT](#)) with the Mtext Editor.

Hex bolt
