

Replace Block

2602 GstarCAD MY /KW November 9, 2021 [Workflow](#) 0 2961

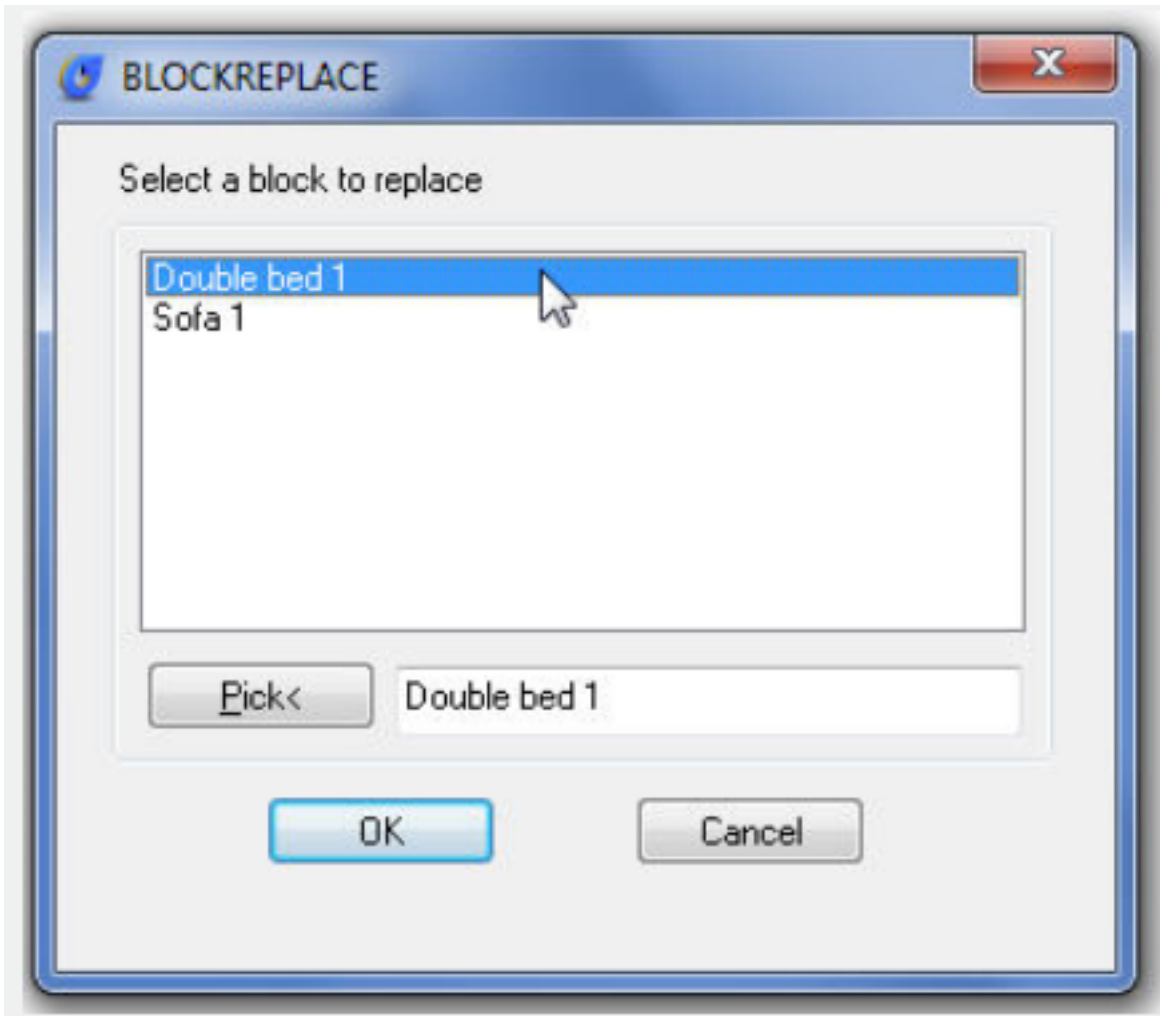

In the current drawing, you can use one block to replace another one, moreover, you can purge the unreferenced block when the operation is finished.

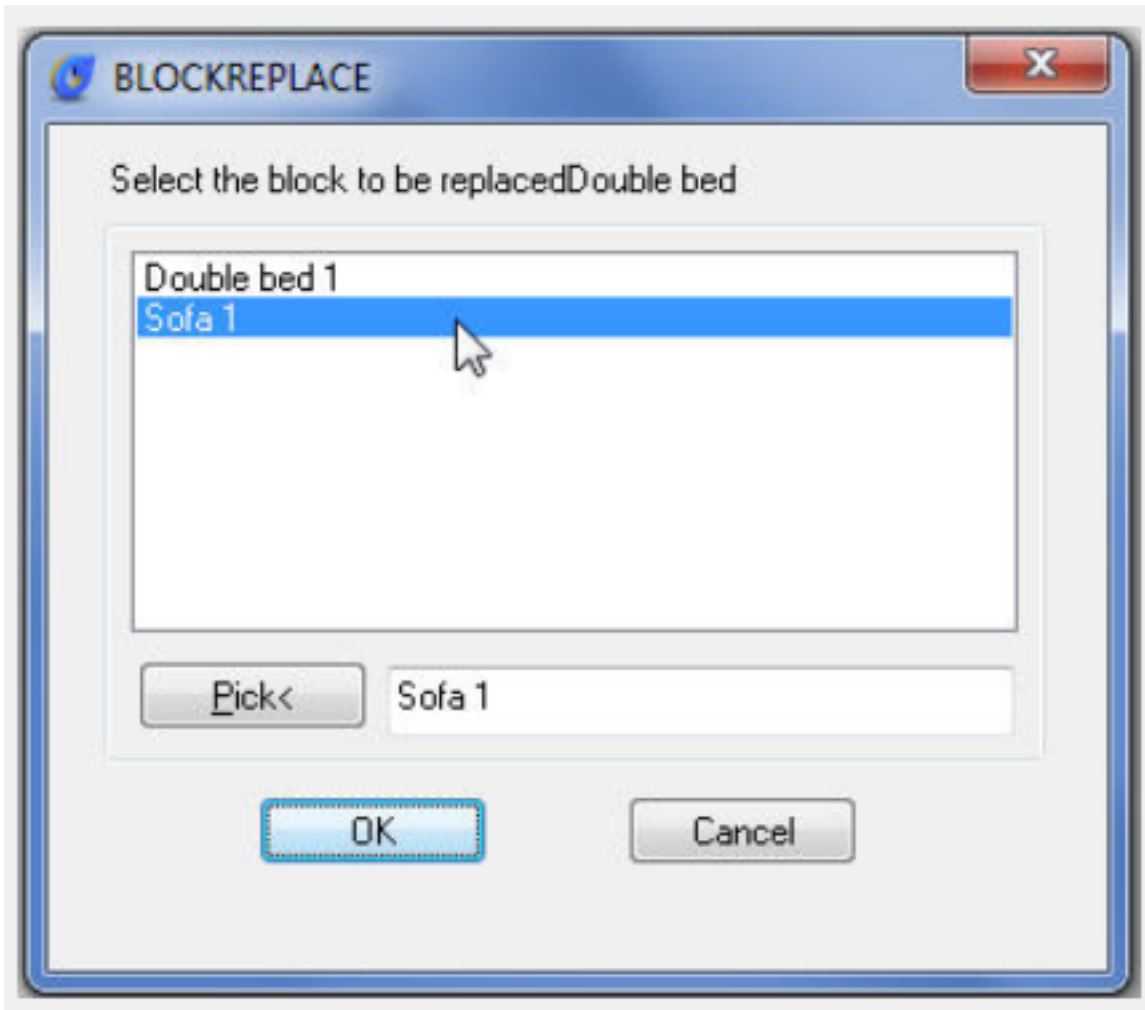

Menu : Express tools>Blocks>Replace Block

Command Entry : [BLOCKREPLACE](#)

Select a block to replace: Double bed. Then select: OK

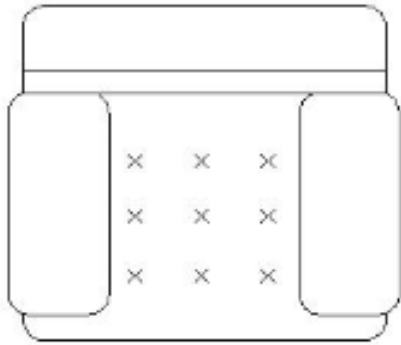

Select the block to be replaced: Sofa. Then select: OK

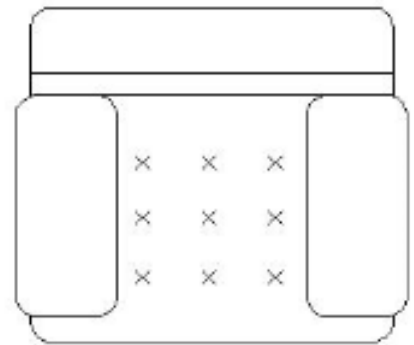

Purge unreferenced items when finished? Yes/No

See the result below:

SOFA

DOUBLE BED
