Justify Text

2642 GstarCAD MY /KW November 12, 2021 Workflow 0 2636

Change a text object's justification without changing its position. Works with text, mtext, and attribute definition objects.

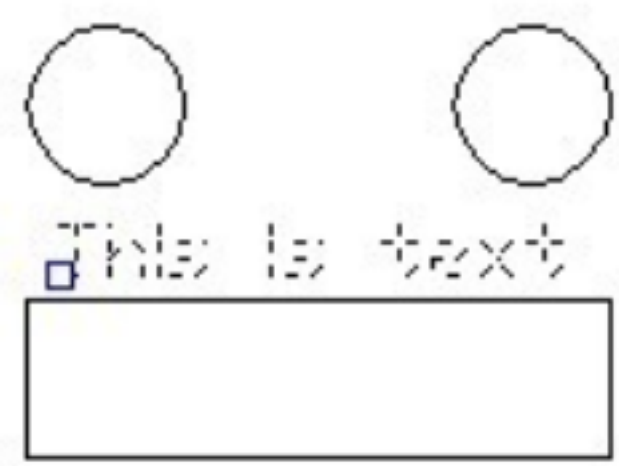
Menu : Text >Others>Justify Text

Command Entry : TJUST or JUSTIFYTEXT

Select objects: Use an object selection method
[Start/Center/Middle/Right/TL/TC/TR/ML/MC/MR/BL/BC/BR] <Start>: Choose the new justification

Usage Example:

Covert text to middle justified
Text left justified:



Text after justification change:
