

Get Selection by Object/Layer

2670 GstarCAD MY /KW November 18, 2021 [Workflow](#) 0 1497

Select entities by entity type and layer.

Menu : Express>Selection Tools>Get Selection by Object/Layer

Command Entry : getentlaysel

Operation steps:

- 1.Start the command.
- 2.Select one object and system will take the object layer as target layer.
- 3.Specify region.
- 4.System will select the objects which are in the same layer and with same entity type automatically.
