## Set Model Space Viewports

[GstarCAD 2027](#) · [User Guide](#)

User Guide > Control the Views > Display Multiple Views in Model Space > Set Model Space Viewports

You can split the drawing area into one or more adjacent rectangular views, which are also called *model space viewports* on the Model tab.

For example, If you choose 2 or 3 viewports, you can set the arrangement of viewports: Three viewports:

Enter a configuration option

[Horizontal/Vertical/Above/Below/Left/Right] <Right>:

You can easily split and join the model space viewports. If you want to join two viewports, they must share a common edge of the same length.
