Publish Drawings

[GstarCAD 2027](#) · [User Guide](#)

User Guide > Plot and Publish Drawings > Publish Drawings

You can use Publish command to create a paper drawing set or an electronic drawing set.

You can set options for publishing, such as output file location, DWF type, multisheet DWF name options, and whether or not to include layer information. You can also decide what types of information to reveal in your published DWF files.
