Create Single-Line Text

[GstarCAD 2027](#) · [User Guide](#)

User Guide > Text > Create Single Line Text

Using single-line text, you can create one or more lines of text, where each line is an independent object. When you create single-line text, you can start a new line by press ENTER or click in the drawing.

When you create single-line text, you can use current text style or specify another text styles, you can specify the start point, height, rotation angle and justification of the text.
