User Guide > Start, Save and Organize a Drawing

[Start a New Drawing](#)

You can start a new drawing by creating from scratch, using a template file or using the wizard.

[Open or Save a Drawing](#)

You can find and open drawings. You can save drawing as another files, and backup drawing automatically..

[Recover or Restore Drawing files](#)

If a drawing file is damaged or if the program terminated without saving, you can recover some or all of the data by using commands such as recover or audit and etc, or you can revert to a backup file.

[Sheet Set Manager](#)

Managing large sets of drawings manually can be complicated and time consuming. In GstarCAD the Sheet Set Manager allows you to manage the entire project drawing sheet sets. It can manage all the work flow from sheets creation, printing and publishing. etc.
