

WBLOCK Command — GstarCAD 2027

2878 kbadmin September 25, 2026 [Command Reference](#) 0 19

WBLOCK Command

[GstarCAD 2027](#) · [Command Reference](#)

Commands > W Command > WBLOCK

Function Description:

This command is used to save selected object as a specified drawing file or convert a block into a specified drawing file. The [Write Block dialog box](#) is displayed.

If you enter -WBLOCK at the command line, the Create Drawing File dialog box is displayed, users can specify a new drawing file name and path. If the FILEDIA system variable is set to 0, the standard file selection dialog box is suppressed.

Command Access:

Menu:

/

Ribbon: Insert > Block Definition > Create Block > Write Block

Toolbar:

/

Command: WBLOCK

Alias: W

Command Prompts: /
