

WMFIN Command — GstarCAD 2027

2882 kbadmin September 25, 2026 [Command Reference](#) 0 9

WMFIN Command

[GstarCAD 2027](#) · [Command Reference](#)

Commands > W Command > WMFIN

Function Description:

This command is used to import a windows metafile. The Import WMF dialog box is displayed.

The WMF file can contain vector and raster information, but it can only export the vector information. It can be inserted as a block reference, the size and print style can be modified without losing resolution.

Command Access:

Menu:

Insert > Windows Metafile...

Ribbon: /

Toolbar: /

Command: WMFIN

Alias:

/

Command Prompts:

/
