Reference Other Drawing Files

[GstarCAD 2027](#) · [User Guide](#)

User Guide > Share Data Between Drawings and Applications > Reference Other Drawing Files

An entire drawing can be attached to the current drawing as a referenced drawing (xref). Changes made to these xrefs, will be visible in the current drawing.

[Attach and Detach](#)

[External Reference](#)

A number of functions can be applied to referenced drawing (xref) files, like attaching, detaching and setting paths.

[Update Referenced Drawings](#)

Referenced drawings (xrefs) can also be updated.

[Edit Referenced Drawings](#)

You can edit referenced drawings in two different ways, you can open them directly or you can edit the xref in-place within the current drawing.

[Bind](#)

[External References to Drawings](#)

You can bind external references into the current drawing.
