The User Interface

[GstarCAD 2027](#) · [User Guide](#)

User Guide > The User Interface

[Toolbars and Menus](#)

The frequently used commands, settings and modes can be visited via the toolbar and the menu.

[The Command Window](#)

The command window is a dockable and resizable window, where you can display commands, system variables, options, messages and prompts.

[Design Center](#)

In the Design Center, you can manage layer definitions, block references, xrefs and other contents like layouts and text styles.

[Customize the Drawing Environment](#)

You can customize many elements of the working environment to fit your needs.

[Tool Palettes](#)

Tool palettes are tabbed areas within the Tool Palettes window and they can be used to organize, share and place blocks.
