BPARAMETERFONT System Variable

[GstarCAD 2027](#) · [System Variables](#)

System Variables > B System Variables > BPARAMETERFONT

Function Description:

The BPARAMETERFONT system variable is used to set the font used for parameters and actions in block editor.

Type	Strings
Saved in	Registry
Initial value	Arial

Users can specify either a True Type font or a SHX font(such as Verdana or Verdana.ttf). They must add the .shx extension to a font. When specifying an Asian Big Font, using the following naming convention: an SHX file followed by a comma, followed by the Big Font file name(such as txt.shx, Bigfont.shx).
