

ISAVEPERCENT System Variable — GstarCAD 2027

ISAVEPERCENT System Variable

[GstarCAD 2027](#) · [System Variables](#)

System Variables > I System Variables > ISAVEPERCENT

Function Description:

The ISAVEPERCENT system variable is used to determine the amount of wasted space that allowed in a drawing file.

Type	Integer
Saved in	Registry
Initial value	50
Range	0 ~ 100

The value of ISAVEPERCENT system variable is an integer from 0 to 100. The default value 50 means the amount of wasted space taking 50 percentages of all space.
The wasted space can be removed when time expired. When the estimate exceeds 50 percent, the next save will be a full save. This resets the wasted space estimate to 0. If ISAVEPERCENT system variable is set to 0, every save is a full save.
