GCVERTICAL Command

[GstarCAD 2027](#) · [Command Reference](#)

Commands > G Command > GCVERTICAL

Function Description:

Aligns lines or pairs of points to be parallel with the Y-axis of the current coordinate system.

Command Access:

Menu Item: Parameters (P) > Geometrical Constraints (G) > Vertical (V)

Ribbon: Parameters > Geometric Constraints > Vertical

Toolbar /

Command Line: GCVERTICAL

Command Alias /

Command Prompts:

Select objects or [Two points (2p)]: Prompts the user to select objects that need to be aligned parallel to the Y-axis or to specify two points that define the vertical alignment.

Operation Steps:

1  As shown in the figure (which is not provided here), select the line to apply the vertical constraint.

2  The line will be aligned to be parallel with the Y-axis.
