Options Dialog Box

[GstarCAD 2027](#) · [Command Reference](#)

Commands > O Command > OPTIONS > Options Dialog Box

Function Description:

Customizes the program settings.

The Options dialog box includes the following tabs: File, Display, Open and Save, Plot and Publish, User Preferences, Draw, Selection set, Profiles, Cloud storage sync settings.

Dialog Box Options:

File tab

Lists the folders in which the program searches for support, driver, menu, and other files. Also lists optional, user-defined settings such as which dictionary to use for checking spelling.

Display tab

Customizes the display.

Open and Save tab

You can set options such as File Save, File Open, Application Menu, File Safety Precautions, Xrefs, etc.

Plot and Publish tab

Controls options related to plotting and publishing.

User Preferences tab

Sets system related options.

Draw tab

Sets options for several editing features, including AutoSnap and Auto Track.

Selection set tab

Sets options for selecting objects.

Profiles tab

Controls the use of custom configurations

Cloud storage sync settings tab

Controls settings related to Cloud storage synchronization.

Options that can be set in this tab include: Select Cloud Driver, Information, Drawing transmission settings.
