IMAGEATTACH Command

[GstarCAD 2027](#) · [Command Reference](#)

Commands > I Command > IMAGEATTACH

Function Description:

This command is used to insert a reference to an image file. The attached image file is linked to the current drawing. When you open or reload the referenced file, all changes are displayed in the current drawing. The Select Reference File dialog box is displayed. Once you select an image file, the [Attach Image dialog box](#) is displayed.

Command Access:

Menu: Insert > Raster Image Reference...

Ribbon: /

Toolbar: Reference > Attach Image

Command: IMAGEATTACH

Alias: IAT

Command Prompts: /
