Alias: /

Command Prompts:

Select text objects, or
[Options]<Options>:

Select text objects

Uses an object selection method to select text.

Options

Displays the Text to MText
Options dialog box to specify the settings option.

- **Merge as Single MText:**
Combines the selected text objects into a single mtext object.
 - **Text ordering-Selection set**
order: Specifies the order of the selected text by manual selection.
 - **Text ordering-Sort top-down:**
Specifies the order of the selected text by descending vertical position.
 - **Create word-wrap MText:**
Combines all the lines of text into a single line, and then wraps any text that exceeds the width of the mtext object to the next line.
