Rename Dialog Box

[GstarCAD 2027](#) · [Command Reference](#)

Commands > R Command > RENAME > Rename Dialog Box

Function Description:

The RENAME dialog box is used to specify a name to a named object, such as a layer or dimension style.

Dialog Box Options:

Named

Lists named objects in the drawing by types.

Items

Displays items of the type which is selected in the Named list.

Old Name

Specifies the old name of item. Users can use wildcard characters to rename items groups, such as "*" or "?". Some standard items can not be renamed, such as layer 0 and the CONTINUOUS linetype.

Rename To

Specifies the new name for the item.
