ACISIN Command

[GstarCAD 2027](#) · [Command Reference](#)

Commands > A Command > ACISIN

Function Description:

The ACISIN command is used to import ACIS(*.sat) files and create 3D solids, bodies or region objects.

Command Access:

Menu: Insert > ACIS File

Ribbon: /

Toolbar: /

Command: ACISIN

Alias: /

Command Prompts: /

Entering ACISIN at the command line, the "Select ACIS File" dialog box pops up, select the file to be imported, the SAT (ASCII) ACIS file can be imported in the current drawing.

Note: The ACISIN command can only import version of ACIS 7.0 or much lower version of SAT file.
