ACISOUT Command

[GstarCAD 2027](#) · [Command Reference](#)

Commands > A Command > ACISOUT

Function Description:

This command is used to export a body object, solid, or region to an ACIS file.

Command Access:

Icon: /
Menu: /
Ribbon: /
Toolbar: /
Command: ACISOUT
Alias: /

Command Prompts:

Select object:

If the selected object is not a solid or region object, it will be ignored.

When the "Create ACIS File" dialog box is displayed, input the file name to be created, the selected object will be exported to an ASCII file.
