ANNORESET Command

[GstarCAD 2027](#) · [Command Reference](#)

Commands > A Command > ANNORESET

Function Description:

Resets the locations of all alternate scale representations of the selected annotative objects. Adjust the location of every scale representation of an annotative object by using grips. For each of the selected annotative object, all alternate scale representations are returned to the location of the object's current scale representation.

Command Access:

Icon:

Menu: Modify > Annotative Object Scale > Synchronize Multiple-scale Positions

Ribbon: Annotation > Annotation scaling > Synchronize Multiple-scale Positions

Toolbar: /

Command: ANNORESET

Alias: /

Command Prompts:

Select object:
