APPMANAGER

[GstarCAD 2027](#) · [Command Reference](#)

Commands > A Command > APPMANAGER

Function Description:

Based on the modular transformation of the current platform, some functions are presented in the form of independent applications. The Application Manager is used for unified management of first-party applications. The management content includes information display, operation status display, enabling/disabling control, and searching for modular applications.

Command Access:

Menu Item: Application Software (A) > Application Manager

Ribbon: Application Software > Application Manager > Application Manager

Toolbar: /

Command Line: APPMANAGER

Command Alias: /

Command Prompts:

Open Application Manager: Pops up the Application Manager window.
