AUTOPUBLISH Command

[GstarCAD 2027](#) · [Command Reference](#)

Commands > A Command > AUTOPUBLISH

Function Description:

This command is used to publish drawings to DWF, DWFx, or PDF files automatically to a specified location. The file format (DWF, DWFx, or PDF) is specified in the Auto Publish Settings dialog box. Click to view information about the plot and published drawings on the right side of the status bar. Clicking opens the Plot and Publish Details dialog box, which provides information about your completed plot and publish jobs.

Command Access:

Icon: /

Menu: /

Ribbon: /

Toolbar: /

Command: AUTOPUBLISH

Alias: /

Command Prompts:

AutoPublish DWF or specify override [Location]
<AutoPublish>:

AutoPublish

Automatically publishes the drawing to a DWF, DWFx, or PDF file. The file format (DWF, DWFx, or PDF) is specified in the Auto Publish Settings dialog box.

Location

Specifies a directory where the published drawings are stored. Opens Select a Folder for Generated Files dialog box.
