BLOOKUPTABLE Command

[GstarCAD 2027](#) · [Command Reference](#)

Commands > B Command > BLOOKUPTABLE

Function Description:

This command is used to display or create a property query table for a specified dynamic block definition.

You can only use the BLOOKUPTABLE command in the Block Editor. When specifying a lookup action to a lookup parameter, the [Property query table dialog box](#) pops up. If there is already a lookup table for a lookup action, it will display in the Property query table dialog box when running the BLOOKUPTABLE command.

Command Access:

Icon: /

Menu: /

Ribbon: /

Toolbar: /

Command: BLOOKUPTABLE

Alias: /

Command Prompts:

Select Lookup Action:
