CDORDER Command

[GstarCAD 2027](#) · [Command Reference](#)

Commands > C Command > CDORDER

Function Description:

This command is used to set the drawing order of selected objects by their color number. The CDORDER dialog box is displayed after you select an object according to the prompt on the command line. You can specify the drawing order by the color priority, the first color on the left list is in front and the last color is in back.

Command Access:

Menu: Express > Modify > Draworder by color
Ribbon: Express > Modify > Draworder by color
Toolbar: /
Command: CDORDER
Alias: /

Command Prompts: /

Select object:
