DGN Mapping Setups Dialog Box

[GstarCAD 2027](#) · [Command Reference](#)

Commands > D Command > DGNMAPPING > DGN Mapping Setups Dialog Box

Function Description:

Creates, renames, modifies and deletes mapping setups for DGN data import.

Dialog Box Options:

Current User

Displays the user's login name.

Name

Lists all mapping setups. If the setup name is too long to be completely displayed, an ellipsis(...) is shown at the end.

Type

Specifies the mapping setup type: import or export.

Description

Displays the description of the selected mapping setup.

New

Displays the New Mapping Setup dialog box, in which you can define a new mapping setup.

Rename

Starts in-place editing of the currently selected mapping setup.

Modify

Displays the Modify DGN Mapping Setup dialog box, in which you can modify the currently selected mapping setup.

Delete

Deletes the currently selected mapping setup. After deletion, the mapping setup directly below the one deleted is selected. If there is none below, the one directly above it is selected.
