DIMSTYLE Command

[GstarCAD 2027](#) · [Command Reference](#)

Commands > D Command > DIMSTYLE

Function Description:

This command is used to create and modify dimension styles.

The [Dimension Style Manager dialog box](#) is displayed. A dimension style contains all kinds of dimension settings that control the appearance of dimensions. Users can create a new dimension style to specify the format of dimensions quickly, and to ensure that dimensions conform to standards.

Command Access:

Menu: Format > Dimension Style...

Ribbon: Annotation > Dimension > DIMSTYLE

Toolbar: Dimension > Dimension Style...

Command: DIMSTYLE

Alias: DST

Command Prompts: /
