Data Link Manager Dialog Box

[GstarCAD 2027](#) · [Command Reference](#)

Commands > D Command > DATALINK > Data Link Manager Dialog Box

Function Description:

Creates, Edits and manages data links.

Dialog Box Options

Links

Displays links contained within the drawing. Also gives options for creating new data links.

- Excel Link: Lists the Microsoft Excel data links within the drawing.
- Create new Excel Data Link: Displays the "Enter Data Link Name" dialog box. Once a name has been created, the "New Excel Date Link" dialog box is displayed.

Details

Lists information for the data link selected in the tree view above.

Preview

Displays a preview of the linked data as it would appear in the drawing table. When a data link is not currently selected then no preview is displayed.
