Dimension Style Import Dialog Box

[GstarCAD 2027](#) · [Command Reference](#)

Commands > D Command > DIMIM > Dimension Style Import Dialog Box

Function Description:

Imports named dimension styles from a DIM file into the current drawing.

Dialog Box Options

Import Filename

Specifies the ASCII text file to import. By default, the file has a DIM extension and the file must be in the format generated by the DIMEX command. All dimension styles in the selected file are imported into the current drawing. Text styles are also imported.

Import Options

Included Keep Existing Style, to keep the dimension style in the current drawing and Overwrite Existing Style, to overwrite styles in the current drawing.
