Coordinate and Coordinate System

[GstarCAD 2027](#) · [User Guide](#)

User Guide > Create and Modify Objects > Use Precision Tools > Coordinate and Coordinate System

[Enter 2D Coordinates](#)

Specifying points on the xy plan when executing a 2D operation.

[Enter 3D Coordinates](#)

This operation is similar to the 2D operation, the only difference is that a Z axis is added.

[Defining User Coordinate Systems](#)

The user coordinate system is a movable coordinate which is helpful to enter coordinates and to create a drawing plan.
