Display and Change the Properties of Objects

[GstarCAD 2027](#) · [User Guide](#)

User Guide > Create and Modify Objects > Control the Properties of Objects > Display and Change the Properties of Objects

The current properties for any object in your drawing can be displayed and changed.

Use the GstarCAD Properties Panel

The most commonly used properties for each object type or a set of objects are listed in the GstarCAD properties panel.

- The GstarCAD Properties panel will display the selected properties of that object type when you select one or more objects of the same type.
- The GstarCAD Properties panel will display the common properties when you select two or more objects of different types.
