Select Objects

[GstarCAD 2027](#) · [User Guide](#)

User Guide > Create and Modify Objects > Change Existing Objects > Select Objects

You have various options to select objects.

[Select Objects Individually](#)

You can select one or more objects individually at the Select Objects prompt.

[Select Multiple Objects](#)

You can select multiple objects at the same time at the Select Objects prompt.

[Filter Selection Sets](#)

You can include or exclude objects in a selection by using object properties or object types.

[Edit](#)

[Groups](#)

A group is a saved set of objects. You can select and edit it together or separate objects of the group.
