Add a new 3D Modeling interface

[GstarCAD 2027](#) · [Whats New](#)

A new 3D Modeling interface has been added alongside the existing Classic and 2D Drafting workspaces.

The "3D Modeling" workspace exclusively includes toolbars, menus, and palettes relevant to 3D design, while automatically hiding non-essential interface elements. This optimizes screen space and streamlines the user experience for 3D modeling tasks.
