Aligned

[GstarCAD 2027](#) · [Whats New](#)

Function Description:

Constrains the length of a line or the distance between two lines, a point on an object and a line, or two points on different objects.

Command Access:

Menu Item: /

Ribbon: Block Editor > Dimensional > Aligned

Toolbar: /

Command Line: BCPARAMETER > Aligned

Command Alias: /

Command Prompts:

Specify first constraint point or [Object(O)]:

Specify second constraint point:

Operation Steps:

1☐As shown in the figure, select the endpoints of the Aligned line to add a Aligned constraint parameter.

2☐The Aligned distance between the endpoints of the objects will be constrained.
