COPY Enhancement

[GstarCAD 2027](#) · [Whats New](#)

Innovative Features > COPY Enhancement

There are three options: measure(E), divide(I), path(P) options are added in copy command, user can easily finish the drawing without the assistance of other operations such as divided by segment, by distance, array, or layout bypath in previous version.

1. Measure, when users need to copy objects with same distance and same direction, this option will be very useful.

2. Divide, you can copy many objects with same distance in a specified distance.

3. Path, After select the path option, you can select divide or measure option again to locate the count objects.
