GXFSS

[GstarCAD 2027](#) · [Whats New](#)

This GXFSS command can extend or cut down the line to the actual intersection or apparent intersection point.

Operation sample:

- 1.Start the command.
- 2.Select the elongation (or shortening) of the line.
- 3.Specify the object to root as shown below.
- 4.The line will extend or shorten to the apparent intersection point as shown below.
