By using the mouse or another pointing devices, you can move a drawing to view the drawing object from different angles.

When you activate 3D navigation, you can pan and zoom at the same time. During a 3D navigation operation, it is not allowed to manage or edit entities in the drawing.

Press ENTER, ESC or click the right-mouse button to display the shortcut menu, you can close 3D navigation by selecting "Exit" in the shortcut menu.

Note: Raster images and OLE objects can not be displayed in the 3D navigation view.
