About Displaying and Changing the Properties of Objects

[GstarCAD 2027](#) · [Command Reference](#)

The current properties for any object in your drawing can be displayed and changed.

Use the GstarCAD Properties Panel

The most commonly used properties for each object type or a set of objects are listed in the GstarCAD properties panel.

- The GstarCAD Properties panel will display the selected properties of that object type when you select one or more objects of the same type.
- The GstarCAD Properties panel will display the common properties when you select two or more objects of different types.
